Lessons

Title	Order	Lesson grade
Read this before the course (/student/course/5727275479728128/lesson/5636598083354624)	0	grade this lesson (/student/course/572727547972
HTML and the Web (/student/course/5727275479728128/lesson/5768861802561536)	1	grade this lesson (/student/course/572727547972
Intro to CSS (/student/course/5727275479728128/lesson/6305299694616576)	2	grade this lesson (/student/course/572727547972
CSS Layouts (/student/course/5727275479728128/lesson/5748792359911424)	3	grade this lesson (/student/course/572727547972
HTML & CSS recap (/student/course/5727275479728128/lesson/6259478668247040)	4	grade this lesson (/student/course/572727547972
Bootstrap (/student/course/5727275479728128/lesson/4853210980286464)	5	grade this lesson (/student/course/572727547972
Git and GitHub (/student/course/5727275479728128/lesson/5655946239934464)	6	grade this lesson (/student/course/572727547972
Recap lesson (/student/course/5727275479728128/lesson/5114066758533120)	7	grade this lesson (/student/course/572727547972
Introduction to Python and variables (/student/course/5727275479728128/lesson/5752233467576320)	8	grade this lesson (/student/course/572727547972

Title	Order	Lesson grade
Conditions and loops (/student/course/5727275479728128/lesson/4852103784693760)	9	grade this lesson (/student/course/572727547972
Recap lesson + Storing data into a file (/student/course/5727275479728128/lesson/5708382824562688)	10	grade this lesson (/student/course/572727547972
List and Dictionary (/student/course/5727275479728128/lesson/5189283514155008)	11	grade this lesson (/student/course/572727547972
Functions (/student/course/5727275479728128/lesson/5070961158127616)	12	grade this lesson (/student/course/572727547972
Object-oriented programming (OOP) (/student/course/5727275479728128/lesson/5729569361362944)	13	grade this lesson (/student/course/572727547972
Recap & pip (/student/course/5727275479728128/lesson/6302037499183104)	14	grade this lesson (/student/course/572727547972
Intro to backend web development (/student/course/5727275479728128/lesson/5068844880101376)	15	grade this lesson (/student/course/572727547972
Deployment & Jinja (/student/course/5727275479728128/lesson/5767274510155776)	16	grade this lesson (/student/course/572727547972
POST request & cookies (/student/course/5727275479728128/lesson/5718084484595712)	17	grade this lesson (/student/course/572727547972
Database (/student/course/5727275479728128/lesson/5756258153922560)	18	grade this lesson (/student/course/572727547972
Recap lesson (/student/course/5727275479728128/lesson/6210205662576640)	19	grade this lesson (/student/course/572727547972
Authentication system (/student/course/5727275479728128/lesson/5667664051568640)	20	grade this lesson (/student/course/572727547972
Must-have features: edit, delete, list all, details (/student/course/5727275479728128/lesson/5734437706792960)	21	grade this lesson (/student/course/572727547972
Automated testing (/student/course/5727275479728128/lesson/4823423133941760)	22	grade this lesson (/student/course/572727547972
API & JSON (/student/course/5727275479728128/lesson/5130854342852608)	23	grade this lesson (/student/course/572727547972
Conclusion (/student/course/5727275479728128/lesson/5669096624488448)	24	grade this lesson (/student/course/572727547972
